# ENJOY

*A large breakwater, which surrounds the marina is suitable even for large boats.*

# Vimpasaari

## *Terrace of the sea*

The idyllic Vimpa Island farm is situated 10 km south-east from the centre of Hamina and is reachable by car. At Villa Vimpa Island we have a heated glass porch, which is an excellent space for dining or meetings all year around. The main house has a cosy and unique Mannerheim pub. The courtyard has heated log cabins from the 17th century and a charming Vimpa Club, which functions as meeting or evening entertainment space for 60 people.

We can also offer great possibilities for swimming and sunbathing. A large breakwater, which surrounds the marina, is suitable even for large boats, max. 1,8 m depth. Wintertime is great for ice-swimming.

Our glazed barbecue area and Laplander's hut seating 25 persons provide exotic experiences with winter sea views. We also can offer a Ship sauna right at the beach, Hot tub, the wooden sauna and living room with fire place. The Vimpa Island courtyard and surrounding area offer several traditional yard play possibilities.

# Rakinkotka

## *Isle of Vikings*

The Rakinkotka Island, with an area of 27 hectares, is situated a 7 km boatripe from the main land and it is all ours to use. We have built a cosy old-fashioned Viking island village to entertain our customers. A part of the buildings are from the 17th century and a part are built from the island wood, broken by storms. As a building material from outside the island we have used 55 km of ecological heat-treated wood. We use green energy from sun and wind.

The nature of the archipelago is exceptionally diverse and beautiful. In summertime we have lambs and chicken on the island, in spring and summertime we enjoy watching thousands of birds as their mass migration route goes over our island. Our bird-watching tower has a great location for not only the bird-watching but also admiring the picturesque sea view.

Rakinkotka also offers a 3 km easy-to-walk island path, Elmolandia -activity center and a playful forest golf course. Traces of the transports of granit from the island quarry to St. Petersburg in the 16th century are still visible, so there are winds of history blowing on the island as well!

Wintertime we offer fishing, skiing, snow shoe hiking, snowmobiling, ice-golf or taking a hovercraft trip. Enjoying the untouched wintertime nature scenery, making camp fires or even spot a seal are one-of-a-kind experiences. The transfer to Rakinkotka is safely managed by boats or ships according to weather and season. We also have our own hovercraft.
